

# Super K Fulvate

## GUARANTEED ANALYSIS

Total Nitrogen (N) .....	<b>3%</b>
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	<b>1%</b>
Soluble Potash (K <sub>2</sub> O) .....	<b>10%</b>

**Super K Fulvate** is our traditional fulvic acid, added with K<sub>2</sub>O and microelements, and it is a 100% soluble powder. It provides the plants with all the elements needed for a healthy grow and at the same time, it supplies all the advantages using fulvic acid provides.

It is compatible with most liquid fertilizers, pesticides, herbicides and defoliant. However, if the combination has not been previously used, a compatible test is recommended.

Store in original container at temperature above 18 °C. Disposal on site or at an approval waste disposal facility.

### General Application

Landscape and/or gulf turf: Apply 22 gm/ha in spring and fall. Irrigate to the soil. For foliar application, use 2.2 - 3.4 kg/ha in at least 19 l of water finish spray for aerial equipment, when plants are 3 to 4 weeks old.

Repeat every 15 to 20 days during the cycle. Information concerning the raw materials composing this product can be obtained by contacting us.
